

Oil Sands Mining operations At a Glance

Horizon and Albian

October 2022

INVESTING LOCALLY

Significant local economic contributions

Supporting jobs, companies and public services (health, safety and education)

- Supporting direct and indirect (suppliers) jobs
- Revenues to governments in royalties and corporate taxes
- Property taxes to municipal governments

ON-SITE EMPLOYMENT

4,807

full-time staff

across our oil sands mining and upgrading operations

118

post-secondary students

in cooperative work terms in 2022

2021 LOCAL COMMUNITY HIGHLIGHTS

20+ community organizations

supported, including Keyano College, MacDonald Island Park recreation, Centre of Hope, Girls Inc., Athabasca Tribal Council, Big Brothers Big Sisters of Wood Buffalo and the Wood Buffalo Food Bank

Supporting students

Canadian Natural sponsored the Traditional Celebration of Achievement. This is an annual event to celebrate First Nations, Métis and Inuit graduates from Fort McMurray Catholic and Public School divisions, and the Northlands School Division

Employee volunteering

Oil Sands Mining firefighters participated in the 8th annual Firefighter Stairclimb Challenge, which raised funds for Wellspring Calgary. The event raised awareness and support for firefighters and all citizens living with cancer

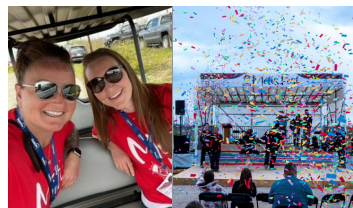

Working together

through community-based stakeholder groups, such as the Oil Sands Community Alliance (now part of the Pathways Alliance) where oil sands companies, municipalities and governments have been collaborating for more than 20 years

Investing in local communities

The Northern Lights Health Foundation received funding from Canadian Natural to purchase a transport bus for the new Willow Square Continuing Care Centre. The bus seats eight and can accommodate three wheelchairs, helping transport continuing care residents to medical appointments and social events.

Canadian Natural supported the 10th annual Métis Festival held by McMurray Métis – a celebration of culture, past and future. The day was full of traditional food, performances, storytelling, activities and a marketplace of artists and vendors. The event focused on education and bringing the community together.

We're proud to once again participate in the Fort McKay First Nation Treaty Days, a weekend celebrating community, culture and connections. This year our Horizon Oil Sands team won the annual corporate tug-of-war competition.

With social wellbeing and education as a community priority, we are long-term supporters of the Wood Buffalo Regional Library. We fund the Canadian Natural Teen Area, which provides free membership and programming for teens aged 13-18 and is used for various events, programs and activities.

2021 CORPORATE FACTS

EMPLOYMENT CREATION

80,700+
full-time
equivalent jobs

including direct, indirect (suppliers) and induced (economy at large) supported by operational and capital spending. Majority of jobs in Alberta (71,350 FTE).

457
students

in cooperative work terms across all operations

~9,735
employees

across our operations

**Indigenous
business
development**

we work with Indigenous companies and contractors, and support local training and capacity building

COMMUNITY FACTS

\$31.9
million

invested in local communities in 2021

\$572
million
in Indigenous
contracts

17% increase from 2020, with 144 Indigenous businesses

8,460
hours

of employee volunteering across our operations

139
scholarships

awarded across operations, including post-secondary students in the Regional Municipality of Wood Buffalo

2021 OIL SANDS MINING OPERATIONS FACTS

INITIATIVES IN OUR OPERATIONS

Improving safety

Our local teams follow active safety improvement plans focused on meeting our ultimate goal of "No harm to people; No safety incidents." We have reduced injuries by 43% since 2017

Innovation & Technology

We are the largest owner of carbon capture capacity in the Canadian crude oil and natural gas sector; 6th largest globally. Watch this [video](#) on carbon capture and storage - one of the key technologies that will help us achieve net zero emissions from oil sands operations

ENVIRONMENT HIGHLIGHTS

13%
reduction in corporate
greenhouse gas (GHG)
emissions intensity

since 2017

6
million tonnes of CO₂
safely capture and stored

to date at the Quest facility

2,053

hectares reclaimed

in oil sands mining to date – equivalent to the size of 42 West Edmonton Malls

3.9

million trees planted

planted at Albian since 2002 and Horizon since 2009

Tree planting at Albian operations

86%
recycle rate

of surface water in oil sands mining

The Pathways Alliance

was established by Canada's major oil sands operators, including Canadian Natural, with the goal of working with governments to reduce GHG emissions from oil sands operations to net zero by 2050 and become the preferred supplier of responsibly-produced oil to the world

"To develop people to work together to create value for the Company's shareholders by doing it right with fun and integrity." To keep up to date with what's happening at Canadian Natural and our involvement in your community, follow us on:
