### MANAGEMENT OF CHANGE PROTOCOL

Annual updates are indicated by a full, consecutive 'revision' number before the dash (e.g. 7-0) while other revisions (non-annual update) will trigger a consecutive number change after the dash (e.g. 7-1).

Notification of errors and / or suggestions for improvement will be reviewed, addressed according to significance and considered for the next update by the EM Team. These notifications should include a) the ERP name, b) section(s) and page number(s) affected and c) the rationale for change and directed to:

#### CANADIAN NATURAL RESOURCES LIMITED

<b>On-Site Safe Location (Muster Area):</b>	Upwind side of incident
<b>Off-Site Safe Location (Staging Area):</b>	To be determined at time of incident

# EMERGENCY RESPONSE PLAN

## Greenstreet

Revision 18-0 | March 31, 2026

24-Hour Emergency 1-888-878-3700

### 2.1.4 GENERAL LAND USE AND POPULATION DENSITY

<b>Local Municipality</b>	County of Vermilion River Rural Municipality of Britannia No. 502
<b>Area Land Use</b>	Mixed farming and oil and gas operations

POPULATION DENSITY (WITHIN EPZ)		
NUMBER	TYPE	DESCRIPTION
3	Residences	3 occupied, see Section 4
0	Businesses / Organizations	
0	Public Facilities / Recreational Areas	
0	Trappers / Guide Outfitters	
0	Grazing Leases / Reserves	
0	Forest Management Areas	
0	First Nations	
0	Lakes / Rivers	
1	Public Highways	
0	Other (Railway, logging, etc.)	

### 2.1.5 EMERGENCY & ROADBLOCK EQUIPMENT

#### 2.1.5.1 Emergency Equipment

TYPE	QUANTITY	LOCATION / NOTES
Burn Kit	1	
Eye Wash Station – 1 litre bottle	6	
Eye Wash Station – 15 min flow	1	
First Aid Kit	1	
First Aid Room	2	
First Aid Station	1	
Fire Blanket	1	
Firefighting Hand Tools ( <i>e.g. shovels, axes, picks, hand pump water packs, etc</i> ) - <b>minimum requirements in place for different provinces</b> (see Corp ERP, Section 2.2.4)		
Handheld Fire Extinguisher	1	
Ignition Equipment	6	
Personal Gas Monitor	1	
Portable Gas Detector	1	
Portable Spill Response Kit		
Self-Contained Breathing Apparatus (SCBA)	9	
Spill Response Trailer		Stored at None located on site <b>Nearest Canadian Natural trailer(s):</b> [REDACTED]
Supplied Air Breathing Apparatus (SABA)	6	

### 2.1.5.2 Roadblock (EPZ Isolation) Equipment

Roadblock locations will be determined at the time of an incident. Contents may be replaced with similar devices / equipment or may have additional items.

Refer to Corporate (Core) Emergency Response Plan – Public Protection Measures for isolation procedures.

ROADBLOCK KIT CONTENTS	QUANTITY	LOCATION
3 triangular flare / reflector kits 1 traffic vest (mesh with reflective striping) 1 Stop / Slow paddle 3 traffic cones 1 30-minute flare with spike 1 flare gun with flares 1 6-volt flashlight with spare battery 1 12-volt spotlight 1 roll of Caution tape 1 windsock and stand - clipboard, pencils, paper - ERP map(s)	6	

### 2.1.6 EXTERNAL EMERGENCY RESPONSE PLANS / MUTUAL AID

Canadian Natural maintains emergency response support / mutual aid understandings with local authorities impacted by this ERP and information from these understandings are included in the sections below. These understandings are maintained by annual consultations; consultation forms are filed separately with the Emergency Management group and are not included in this plan. Consultation forms are used to:

- Collect contact information for emergency notification and updating purposes
- Inform government / agency / emergency responder of Canadian Natural practices and procedure to be followed
- Make available relevant information consistent with that which is specified in our Emergency Response Plan (ERP) to the government / agency / emergency responder
- Clarify roles, responsibilities and capabilities of both parties, including support and / or additional aid from agency
- Inform the government / agency / emergency responder of the potential hazards of Canadian Natural facilities
- Inform government / agency / emergency responder of Canadian Natural's risk controls and mitigation activities
- Collect the authorization signature of the relevant agency representative

#### 2.1.6.1 External Emergency Response Plans - Local Municipalities

##### 2.1.6.1.1 County of Vermilion River

The County of Vermilion River may implement their County Municipal Emergency Plan in the event of an emergency. In general the County:

- May initiate and manage the local disaster services response in accordance with County Policy
- May dispatch representative(s) to the Government Emergency Operations Centre (GEOC)
- Ensures all local emergency and public information services are available in accordance with County Policy. Public Information Releases will be coordinated with the Company's Information Officer.
- If required, activates the Municipal Emergency Operations Centre (MEOC) and coordinates activities at this Centre. The MEOC is available to the Company for use as a Regional Emergency Operations Centre (REOC) subject to limitations as may be imposed by the County due to current operations requirements at the time.
- Upon request, may assist with set up and administration of Reception Centre. May assist with arrangement of temporary accommodations for residents who have been evacuated in accordance with County Policy.
- May assist with fire protection in accordance with County Policy in areas where accessible
- If necessary, may declare a local state of emergency to provide local authorities with special powers
- Supports the Company in dealing with the emergency in accordance with County Policy
- May provide public protection communication through Media releases, public service announcements, the County's website and Alberta Emergency Alert

#### **Emergency Services / Equipment:**

**Fire Services** – volunteer Fire Departments include Blackfoot Fire Department, Clandonald Fire Department, Dewberry Fire Department, Islay Fire Department, Kitscoty Fire Department, Marwayne Fire & Rescue Department, Paradise Valley Fire Department and Vermilion Fire & Rescue Department

For disaster services or emergency medical services dial 9-1-1.

**Road Maintenance** – The County maintains its own Public Works Department to provide road maintenance

**Personnel** – The County maintains Mutual Aid Agreements with the Villages of Marwayne, Dewberry, Paradise Valley, Kitscoty and the Town of Vermilion. Two Community Peace Officers patrol the County.

**Equipment** – Traffic control equipment (barricades, etc.) and heavy equipment as owned and maintained by the County's Public Works Department

### 2.1.6.1.2 Rural Municipality (RM) of Britannia (SK) No. 502

The Rural Municipality of Britannia will implement their Municipal Emergency Plan in the event of an emergency. The RM may:

- Assist in the opening and operation of the Reception Centre
- Assist with roadblocks, fire protection and medical services
- If necessary, declare a state of local emergency to restrict access to a designated area
- Assist with accessing SaskAlert, Saskatchewan's emergency public alerting program

Any time an emergency occurs that involves the evacuation of more people than Canadian Natural personnel can handle, the Rural Municipality will be notified to assist. It is essential that Canadian Natural's Incident Commander or designate maintain communication with the Rural Municipality's EMO Coordinator or designate to ensure that responses are coordinated.

#### **Emergency Services / Equipment:**

**Fire Services** – A volunteer-based Britannia Fire Department serves the County. For disaster services or emergency medical services dial 9-1-1.

**Road Maintenance** – The RM has its own Public Works department

**Personnel** – The RM has several mutual agreements with various towns, villages, other RMs, the City of Lloydminster, etc. to pool resources in or der to improve emergency response capabilities

**Equipment** – The RM has access to traffic control equipment (barricades, etc.) and heavy equipment that may be required

#### **For information purposes only:**

A Mutual Agreement currently exists among the following to pool resources in order to improve emergency response capabilities:

Town of Turtleford

Rural Municipality of Frenchman Butte

Rural Municipality of Mervin

Resort Village of Kivimaa-Moonlight Bay

Resort Village of Turtle View

Brightsand Lake Regional Park Authority

Sandy Beach Regional Park Authority

Rural Municipality of Britannia

City of Lloydminster – separate agreement in-place

Legacy Regional Protective Services (RM of Wilton)

#### **Local RCMP Detachments**

The local RCMP detachments of Kitscoty (AB), Lloydminster (SK) and Maidstone (SK):

- May assist with initial area isolation, evacuation and / or assistance with closure of roads
- Provides security, traffic and crowd control
- May assist in search and rescue activities
- Maintains law and order

## 2.1.6 EXTERNAL EMERGENCY RESPONSE PLANS / MUTUAL AID (CONTINUED)

### 2.1.6.2 External Emergency Response Plans: Local Health Services

#### 2.1.6.2.1 Alberta Health Services

#### ENVIRONMENTAL PUBLIC HEALTH ROLES AND RESPONSIBILITIES

Alberta Health Services (AHS) – Environmental Public Health (EPH) roles and responsibilities in public health emergency preparedness and response to the oil and gas industry are outlined below. The provision of services during an emergency depends upon our assessment of legislative responsibilities, impact to services and business continuity.

#### EPH will endeavor to:

- Participate with the Licensee in the development of their Emergency Response Plans as it relates to the Environmental Public Health Program's role and responsibility.
- Provide the AHS Zone Single-Point-of-Contact (SPOC) emergency phone number to enable the Licensee to notify and alert the Zone of an emergency. From the initial notification or alert, AHS emergency response will fan out to and coordinate with other AHS programs and facilities as necessary. 9-1-1 EMS services remain independent of the Zone SPOC notification / alert process.
- Participate with stakeholders in preparedness training and exercises associated with a Licensee's simulated activation of an Emergency Response Plan in which EPH has a role and responsibility.
- Participate in public information sessions during the Licensee's Emergency Response Plan development process when appropriate and as resources allow.
- Provide guidance to stakeholders and local municipal authorities in identifying sites suitable for establishing and operating an evacuation Centre and / or Reception Centre, including operational requirements.
- Provide guidance to stakeholders on substances that may affect public health in consultation with the Zone Medical Officer of Health (MOH), including Alberta Health Acute Exposure Health Effects for Hydrogen Sulphide and Sulphur Dioxide.
- Conduct assessments, inspections and give regulatory direction, when appropriate, to ensure the requirements of provincial legislation and EPH program areas of responsibilities for public health protection and disease prevention are maintained.
- Notify the Zone Medical Officer of Health of any incident affecting or potentially affecting other AHS programs or facilities. The Zone MOH will notify and coordinate emergency response in other program areas and facilities as necessary.
- Establish EPH emergency management operations, when appropriate, to support regional response efforts and liaise with the Government Emergency Operations Centre, Municipal Emergency Operations Centre and / or Industry Emergency Operations Centre, if needed.
- Assist the Zone Medical Officer of Health, local municipal authority and Public Information / Communication Officers in the development, issuance and rescinding of public health, public evacuation and shelter-in-place advisories.
- Provide guidance to stakeholders on matters relating to evacuation of the public and / or public facilities and the re-occupancy of those evacuated areas or facilities.
- Record and respond to health complaints or concerns from the public during and following an incident.
- Participate in stakeholder debriefings as necessary.

### 2.1.6 EXTERNAL EMERGENCY RESPONSE PLANS / MUTUAL AID (CONTINUED)

#### 2.1.6.2 External Emergency Response Plans: Local Health Services (continued)

##### 2.1.6.2.2 Saskatchewan Health Authority (SK)

In the event of an emergency, the Saskatchewan Health Authority:

###### *In a Level 1 Low Impact Event*

- Will receive notification starting at this Level and may respond to inquiries from the public and media if notified.

###### *In a Level 2 Moderate Impact Event or Level 3 High Impact Event*

- Will ensure that local hospitals are alerted when there is potential for an impact from a release.
- Will provide appropriate representation at the off-site Regional Emergency Operations Centre or Incident Command post when it is established or when requested.
- Will provide health related information about toxic chemicals to the emergency operations centre, the public information officer, the media and the general public as required.
- Will provide guidance on the development of public health advisories, public evacuation and sheltering.
- Will monitor the health effects resulting from the event and ensure appropriate data is collected and maintained.
- Will investigate health effects complaints.

If contacted and apprised of an emergency situation by Canadian Natural's Incident Command Team, **Ministry of Health – Health Emergency Management Unit** will be the Health Authority point of contact and provide guidance as required.

#### 2.1.6.3 Mutual Aid Agreements

Canadian Natural does not currently participate in any formal mutual aid agreements for this ERP; however, reciprocal emergency response assistance on a service level to other industrial operators may be possible in the event of an emergency, depending on equipment / personnel resources and availability.

#### 2.1.6.4 Mutual Aid Understandings

##### 2.1.6.4.1 Canadian Natural Operated Third Party Assets

In an emergency involving another licensee whose assets are operated by Canadian Natural as listed below, Canadian Natural would provide First Responder and other actions as needed to implement a safe and efficient emergency response, with an immediate notification to these well or pipeline licensees to activate their ERP / participate in a joint response.

THIRD PARTY LICENSEE	ERP NAME	24 HR EMERGENCY #
Canadian Natural does not contract operate any third party assets in this area		

##### 2.1.6.4.2 Third Party Operated Canadian Natural Assets

In an emergency involving Canadian Natural assets that are operated by third parties listed below, third party operations would provide First Responder and other actions as needed to implement a safe and efficient emergency response, with an immediate notification to Canadian Natural.

THIRD PARTY OPERATOR	ERP NAME	24 HR EMERGENCY #
Canadian Natural does not have any third party operated assets in this area		

# EMERGENCY RESPONSE PLAN

24-Hour Emergency 1-888-878-3700

### 2.1.6.4.3 Non-Operated Third Party Tie In Assets

Where third party assets are tied into this plan's facility(ies) but not operated by Canadian Natural as listed below, the licensee will have their own ERP and would be responsible for emergency response actions involving their assets. Canadian Natural may assist depending on resource availability at the time.

THIRD PARTY LICENSEE & OPERATOR	ERP NAME	24 HR EMERGENCY #
There are no third party assets tied into this plan's facilities

- [REDACTED]

#### 2.1.7.2 Proximity To Nearest Urban Centre

[REDACTED]

#### 2.1.7.3 Latitude and Longitude Coordinates

N/A (no facilities on site)

FACILITY	LATITUDE (N)	LONGITUDE (W)
N/A		

## 2.2 EMERGENCY DETECTION, NOTIFICATION AND CONFIRMATION SYSTEMS

PRESENT AT MAIN FACILITY	TYPE	DESCRIPTION
Y	24-Hour Emergency Telephone Number	A 24-hour emergency number is posted at all facilities and pipeline crossings. Any operator, landowner or citizen can call to notify Canadian Natural of an emergency situation. On-call Canadian Natural personnel will take appropriate actions to manage the emergency.
Y	SCADA System	<b>Supervisory Control and Data Acquisition (SCADA)</b> – Electronic monitoring equipment on wells throughout the gathering system will transmit signals to a central control panel. SCADA systems trigger alarm and call-out systems and may have ESD capabilities.
Y	Alarm and Call-out Process	System monitoring equipment throughout facilities will trigger an alarm to a call-out system to notify applicable operators.
Y (Once a year)	Aerial Surveillance	Pipelines may be surveyed on a regular basis to detect leaks.
Y	Landowner Complaint System	Landowners with concerns, or who have identified potential problems, can call the facility directly or the 24-hour emergency number.
Y	Operator Inspections	Operators do regular inspections of pipelines, wells and facilities and will report any abnormality they detect.
Y (Control Room only)	24-Hour Manned Stations	Some Canadian Natural facilities are monitored 24 hours a day.
N	H <sub>2</sub> S Monitors – Continuous	Continuous H <sub>2</sub> S monitoring equipment is strategically located at all sour facilities. Monitors are calibrated at regular intervals and are designed to activate a call-out procedure to operational personnel if H <sub>2</sub> S levels are detected at the facility. If H <sub>2</sub> S levels reach a predetermined level, the system is designed to activate the Emergency Shutdown (ESD) and shut down the facility.
Y	<b>Gas Monitors – Handheld</b>	Canadian Natural personnel are equipped with personal H <sub>2</sub> S / LEL monitors for early detection.
Y	Gas Detection Equipment	Continuous <b>Combustible Gas Detectors</b> are located throughout the facility. The detectors alarm at 20% lower explosion limit (LEL). At 40% LEL, the detectors engage a facility shut down.
Y	Fire Detection Equipment	An ultraviolet fire detection system, “Fire Eyes,” may be installed throughout facilities.
Y	Leak Detection System	Continuous monitoring systems are installed on several pipeline systems, including but not limited to water injection, oil emulsion and ESD risers. These systems can be based on different methodologies such as pipeline or differential pressure, pressure rate of change (ROC), flow rate imbalance, ROW monitoring, etc.

## 2.3 COMMUNICATIONS

The primary means of communications between the Emergency Response Team personnel and the various Operations Centers / Command Posts will be by cellular telephone. Portable radios will be utilized if practical. Applicable radio frequencies are listed below.

### 2.3.1 COMMUNICATION EQUIPMENT

EQUIPMENT	COMMENT
Cell Phone	Each operator has a cellular phone. Cell coverage in the area is reliable; however some dead spots may occur in lower lying area. In these cases, signals can be re-established by moving to higher ground.
Two-Way Radios	Two-way radios are not utilized in this area. If portable radios are required, contact service providers listed in Contract Services - Communication Rentals Equipment
Land Line	There are no land lines at the facility

### 2.3.2 RADIO FREQUENCIES

NAME	RECEIVE NUMBER	TRANSMIT NUMBER
N/A	N/A	N/A

## 2.4 SPILL RESPONSE

Canadian Natural has implemented company spill response trailers to supplement WCSS equipment caches and / or developed additional water control points for spill mitigation. Company and / or WCSS equipment and spill contingency plans will guide initial emergency response actions while long term spill containment and recovery activities will be performed by established spill response consultants / providers contracted and directed by Canadian Natural. A list of these providers can be found in Contract Services in Section 3.

**NOTE:** WCSS does not provide human resources for spill response however other neighboring industrial operators or other WCSS members may be of assistance.

**For spill response, consult with Environmental Coordinator and applicable WCSS Spill Contingency manual.** Also refer to CiNQ:

Corporate > Environmental Conventional-Thermal > Job Instructions > [\*Spill Response Equipment and Contact List\*](#)

For full spill response procedures, guidelines and methods see applicable WCSS Spill Contingency manual (recommended) or Procedure 5: Hazardous Product Release / Spill Control (SMS 22.05) on CiNQ or in purple tabbed Hazard Response Procedures section in the Corporate ERP.

## SECTION 4: PUBLIC NOTIFICATIONS

4.1	NOTIFICATION PROCEDURES .....	1
4.1.1	Telephone Callers .....	1
4.1.2	Automated Public Notification System (Not Applicable) .....	1
4.2	RECEPTION CENTRE(S) .....	1
4.3	RESIDENT / ORGANIZATION INFORMATION .....	1
4.4	SPECIAL CONSIDERATIONS FOR EMERGENCY RESPONSE .....	1
4.4.1	Locating Transients and Recreational Users .....	1
4.4.2	Isolation of EPZ Procedures .....	1
4.5	SCHOOLS DIVISION(S) / SCHOOL(S).....	2
4.6	INDUSTRIAL OPERATOR(S) .....	2
4.7	TRAPPERS / GUIDE OUTFITTERS .....	3
4.8	GRAZING LEASE(S) / RESERVE(S) AND OTHER LAND USE DISPOSITIONS .....	3
4.9	FOREST MANAGEMENT AREA(S).....	3
4.10	FIRST NATIONS / INDIGENOUS NATIONS.....	3

## 4 PUBLIC NOTIFICATIONS

### 4.1 NOTIFICATION PROCEDURES

#### 4.1.1 TELEPHONE CALLERS

If an emergency occurs that involves only a few residents within the EPZ, the Public Safety Supervisor will designate Telephone Callers to relay messages of notification, shelter-in-place or evacuation. Refer to the Public Safety Supervisor and Telephone Caller roles in the Corporate ERP for procedures and scripts (Forms 15, 16, 17, and 18).

Once all calls are made, the Public Safety Supervisor will review the contacted public within the EPZ and dispatch Rovers for those who requested assistance or were not reached by the telephone callers.

#### 4.1.2 AUTOMATED PUBLIC NOTIFICATION SYSTEM (NOT APPLICABLE)

**\*\*NOT APPLICABLE FOR THIS AREA\*\***

### 4.2 RECEPTION CENTRE(S)

Reception Centre options are listed below. The Reception Centre selected will be based on the site of the emergency and the safest route for evacuating residents out of the Emergency Planning Zone.

RECEPTION CENTRE	LOCATION	TELEPHONE NUMBER	

### 4.3 RESIDENT / ORGANIZATION INFORMATION

Confidential information, if applicable, is only included in the main responders' Emergency Response Plans at the end of this Section. As an alternative to the hard copy versions, this information may also be accessed by authorized users via the ERPlanning web-based application at  

### 4.4 SPECIAL CONSIDERATIONS FOR EMERGENCY RESPONSE

#### 4.4.1 LOCATING TRANSIENTS AND RECREATIONAL USERS

In an emergency situation, aerial surveillance should be considered for sweeping the area to look for individuals such as non-resident landowners, snowmobilers, hunters, backpackers, skiers or any other recreational transient activity. Helicopters and fixed wing contractors are listed in Contract Services Section under the Site Specific Emergency Contacts Tab in the manual.

**NOTE:** Helicopters only fly during daylight hours; an emergency situation that happens at night will require the services of the fixed wing company.

#### 4.4.2 ISOLATION OF EPZ PROCEDURES

- The On-Scene Supervisor will initially designate the necessary personnel to secure all entrances into the incident site and only allow access to authorized personnel. All personnel who are allowed entry will be briefed on the existing conditions and must be equipped with the appropriate Personal Protective Equipment (PPE).
- Cleared pipeline rights-of-way will be temporarily isolated to restrict access using isolation measures as determined at the time of the incident. Consider the use of aerial surveillance, traffic control / roadblock personnel or area rovers.
- Designated personnel will follow the Roadblock Personnel role checklist in the Emergency Response Guide or this manual to provide initial EPZ isolation. Ideally, authorization from the local authority and / or the RCMP should be obtained before establishing roadblocks on public roads.

Canadian Natural

# EMERGENCY RESPONSE PLAN

## Greenstreet

Revision 18-0 | March 31, 2026

24-Hour Emergency 1-888-878-3700

- The Incident Commander will ensure notification and consultation with appropriate regulatory authorities and the RCMP or local police
- For longer term road closures, SMS 6.88 Traffic Control procedure should be used to ensure safe and proper control measures.
- **For temporary isolation of the EPZ in emergency situations, contact the following depending on the feature impacted:**

FEATURE TO BE CLOSED	TYPE OF CLOSURE REQUIRED	AGENCY TO CONTACT	CONTACT INFO SECTION
- Major highways (1, 2 or 3 digit highways) - Other public roads	Notification only	See Section 3.3 Road Closure Contacts	
- for other licensee petroleum development roads (PDRs) and / or forestry roads	Dispatch roadblocks & notification only	See Section 3.3 Road Closure Contacts	
Restricted Area	Fire Hazard (FH) Order	Provincial regulator	Section 3.2 Mandatory Notifications
Restricted Area	Local State of Emergency	Local Municipality	Section 3.2 Mandatory Notifications
Navigable Water Courses	Closure	Local Municipality, RCMP / local police, local Search and Rescue	Section 3.6 Emergency Services
Railways	Closure	Transport Canada and Railway	N/A
Pipeline Right-of-Ways	Closure	Industry	Section 4.6 Industrial Operators
Airspace (establish No-Fly Zone)	NOTAM (Notice to Airmen)	NAV Canada	Section 3.9 Federal Government
		Provincial Authority at Level 2 or 3	Section 3.2 Mandatory Notifications

### 4.5 SCHOOLS DIVISION(S) / SCHOOL(S)

In the event of an emergency, the school division(s) listed below must be contacted. General school division policy defines that in an emergency situation, each division is responsible for children attending their schools until their parents / guardians are located. Private schools must be contacted directly. School children living within the EPZ attend the following schools:

SCHOOL DIVISION	TELEPHONE NUMBER	SCHOOL NAME
There are no school divisions affected by this ERP		

### 4.6 INDUSTRIAL OPERATOR(S)

If an industrial operator is the first person to identify a problem or emergency involving Canadian Natural Facilities, their response will be to notify Canadian Natural immediately. If Canadian Natural personnel are the first people to identify a problem or an emergency, they will immediately notify all industrial operators within the determined EPZ. Whether or not assistance will be given by neighbouring industrial operators will depend on the resources of the company at the time. The following companies operate in the Emergency Planning Zone.

INDUSTRIAL OPERATOR NAME	OPERATIONS DESCRIPTION	TELEPHONE NUMBER
Cenovus Energy Inc.	Wells	24-Hour Emergency   1-877-458-8080

# EMERGENCY RESPONSE PLAN

## Greenstreet

Revision 18-0 | March 31, 2026

24-Hour Emergency 1-888-878-3700

## SECTION 6: MAPS & PUBLIC INFORMATION PACKAGE

<b>6</b>	<b>MAPS &amp; PUBLIC INFORMATION PACKAGE .....</b>	<b>1</b>
6.1	SITE SPECIFIC ERP MAP.....	1
6.2	PUBLIC INFORMATION PACKAGE.....	1

## 6 MAPS & PUBLIC INFORMATION PACKAGE

### 6.1 SITE SPECIFIC ERP MAP

An area map showing the gathering system and facilities, surface development (roads, petroleum facilities, petroleum operators and industrial camps, trappers and guide outfitter cabins, as well as known public facilities / areas where the public may gather on a regular basis) within the Emergency Planning Zone (EPZ) and the surrounding area is included within this section.

If applicable, calculated EPZs for production assets are identified on the map as “yellow” shaded areas.

A pre-determined Environmental Emergency (E2) worst case scenario EPZs are identified on the map as the “pink” shaded areas if applicable.

### 6.2 PUBLIC INFORMATION PACKAGE

A Public Information Package will only be included if assets located in British Columbia have been incorporated into this Site Specific ERP. The following stakeholders who are impacted by an Emergency Planning Zone have been offered an information package as part of the consultation process if applicable:

- Local Indigenous Nation(s)
- Residents / Businesses
- Public Facilities
- Local Airport Operators
- Registered Trappers / Guide Outfitters
- Grazing Lease Holders
- Grazing Reserves
- Forestry Management Areas
- Rights Holders
